Weather Predictor App

This Artificial Intelligence App predicts the future weather based on input parameters.

Select the Weather Parameters ✅:

Precipitation
24.57

Max Temperature
15.65

Min Temperature
12.55

Wind
0.60

Weather Predictor

This app predicts weather using a KNeighborsClassifier model. Adjust parameters using the sliders on the sidebar.

Weather Prediction ✅

Machine Learning Model Result:

Rain

Drizzle Probability:

0.00%

Rain Probability:

100.0…

Sun Probability:

0.00%

Snow Probability:

0.00%

Fog Probability:

0.00%

This AI app can assist with weather predictions but should not replace professional forecasting.
